

Cat

She's a little bit brown, she's a little bit white,
she's a little bit black, likes to eat mice,
she's a little bit sharp teeth, she's a little bit claws,
she's a little bit pouncing, she's a little bit strong jaws,

Chorus

She swish her tail, arch her back,
hiss and spit when she's mad,
sit on your lap purr
and cuddle in when she feels glad.

She's a little bit scratch, climb up a tree,
watch out little bird, don't want to be a play thing,
she's a little bit jumpy, try to catch a butterfly,
or a lizard or a cricket,
you better hide when she passes by,

Night is cold and by the moon,
she creeps darkly like a shadow,
sings a strange unearthly tune,
doo doo doo.

Verse

Chorus

...Shes a little cat
