

Glow Worm

Glowworm high up in a cave
Hang your silk thread down
Shine a light from the end of your tail
Little flies come around
They think you are such a pretty star
They fly up high to see
But your silk thread is like a spiders web
And you catch those flies to eat

Twinkle, twinkle little worm,
in the cave you made your home
Shine a light to catch a fly,
with your silk thread hanging down
One day you will shed your skin,
grow into a flying one
Lay your eggs then lay you down,
they'll be glowworms bright again
