

## **Hamilton's Frog**

Well you won't see me - I'm camouflaged!  
I only come out at night - Nocturnal!  
I've got a small family - I'm a rarity!  
And you'll never hear me croak – 'Cause I don't!

Chorus

Hamilton's Frog is generally light brown blotched with green and dark brown  
Hamilton's Frog, Carries his froglets around till they can hop upon the ground  
Hamilton's Frog is generally light brown blotched with green and dark brown  
Hamilton's Frog, he never says much but he likes to get down

Well there's maybe bout 7 billion people on the planet,  
but there's only a few hundred Hamilton's Frog  
You build your cities till they scrape the sky  
When all we need is a nice damp log

Do you see us at the movies? - No way!  
Do you see us at the mall? - No no!  
But just because we're out of sight and just because we're out of mind  
You know it doesn't mean that we don't matter at all, matter at all

Chorus

I got islands in the south Is. way up a tree, I'm gonna climb  
Hunting for a spider in my sanctuary  
An ancient kind of froggy, I'm swimming like a doggy  
been here since the dinosaurs were walking with me

Would you see me in the water? - Who knows!  
I'm not the greatest swimmer 'cause I haven't got webbed toes  
But just because we're antiquated, like a Tuatara dated  
No that doesn't mean that we don't matter at all  
Matter at all

Chorus
