

I'm a Little Tree. by Levity Beet and Kristina Jensen

INTRO

Make way for me, I'm a little seed

Shine your light, light is what I need

To grow and grow up from below

Love is like the sun in the sky

VERSE 1

Make a building, make the bed

make mistakes and make the deadline

make a promise, make the tea

make your mind up, try to make me!

make it better, make it faster

make it taller, make it last

make out, make war

make it like it was before

make a mess, make it on time

make money, make it rhyme

make up, make ammends

make an enemy, make a friend and...

CHORUS 1

Make way for me, I'm a little seed
Shine your light, light is what I need
To grow and grow up from below
Love is like the sun in the sky
and we all know, it helps us grow

VERSE 1

Make it up as you go along
make me a cuppa and make it strong
make a face cos you made a smell
make me laugh, make me proud
make a stand, make yourself understood
make a wish and make it good
make sense, stop making sense!
make sure to take a breath, and one again and....

CHORUS 2

Make way for me, I'm a little tree

Shine your light, light is what I need

To grow and grow up from below

Love is like the sun in the sky

and we all know, it helps us grow

BREAK

Pine - made a page for these words

Kauri - a home for the birds

Sequoia - we're capturing carbon

Rhododendron - treehouse in your garden

Shade in the sun, nothing more fun

Than climbing and swinging and with the birds singing

We don't live by money we live by the trees... so remember

REPEAT CHORUS 2
