

Pekapeka

He sees by echo sound, hunts in the air,
in the trees, on the ground
Land mammal, our only one,
flying in the starlight, sleepy in the sun

Chorus

He's a bat and he's tracked,
got a transmitter strapped to his back
Thinks they're listening to a radio show
Love song from the lek to make a she bat heart glow
Broadcast radio D.O.C. tonight
And this is his gig if you want to sit in,
you're gonna have to put up a heck of a fight

Kei te waiata a pekapeka, kei te rere a pekapeka
Pekapeka pekapeka pekapeka

He feeds on nectar sweet,
he's partial to some fresh mosquito meat
Moths yum, bugs every one,
pollen fruit and beetles in his tum

Chorus
