

## **Pupu Rangī**

I may be slow but you better not go and lay down in my path  
I'm a hungry hunter and I'll sniff you out  
You'll shiver when I salivate all over you no doubt  
If I catch you and you pale when you realize I even eat other little  
snails...

### Chorus

...watch out, watch out for me, I'll eat you up as fast as can be  
Watch out, watch out for me, I've got 200 tiny little teeth

My beautiful shell it suits me well and guards my squishy bits  
A carnivorous snail on the forest floor,  
I live in rotten leaves and sticks  
If you're a Huhu or a bug, or a worm or even just a slug

I'm a carnivore and a predator  
I'm a slippery, slimy, creep up on you,  
eat you up before you know it

And I take my time, grow my pretty spiral  
While I fatten up on flesh and blood  
I hunt at night and hide out in the day  
Na na na na na na
